EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission filed on 6/10/2004 has been entered.

Several claims were amended in the submission filed 6/10/2004 to specifically recite that at least one ribosomal protein is present in the *in vitro* recombination reaction of the invention in an amount sufficient to enhance recombinational cloning (i.e. claims 14-15, 19, 31 and 40). Claims 14-51, 65-76 and 81-104 are pending in the instant application.

The following examiner's amendment is made in order to update the status of a U.S. patent application cited in the instant specification and to provide a new title that is more descriptive of the invention recited in the allowed claims.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

At page 30, line 29, the phrase --January 12, 1998 (now U.S. Patent No. 6,171,861),-- has been inserted in place of the words "January 12, 1998,".

At page 40, line 11, the phrase --January 12, 1998 (now U.S. Patent No. 6,171,861),-- has been inserted in place of the words "January 12, 1998,".

In the title:

The original title has been deleted and replaced with the following title:

--Enhanced *In Vitro* Recombinational Cloning Using Ribosomal Proteins--

Information Disclosure Statement

Receipt is acknowledged of another supplemental information disclosure statement (IDS), filed 6/10/2004. The corresponding PTO Form 1449 has been mailed with this action.

Drawings

Applicants are reminded the drawings for the instant application were objected to by the draftsman in the office action mailed 11/08/2000 as Paper No. 8. A copy of the Notice of Draftsperson's Patent Drawing Review form is attached to the instant papers.

Conclusion

Claims 14-51, 65-76 and 81-104 are allowed (now claims 1-74).
